You asked. We delivered.

Farmbot Security solutions now available with Starlink and 4G connectivity capabilities.

Introducing two new cameras

Farmbot Security Entry Guard Thermal and Entry Guard Pro.

Rugged security for rural Australia. Built to monitor your boundaries day and night, while acting as a visible deterrent to unwanted activity.

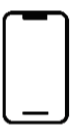

Keep track of every entry onto your property in real time.

The Entry Guard range gives you visibility over who enters your property and when. With multiple camera options, including dual-camera motion and heat detection, plus enhanced number plate recognition, it's built for accuracy across gates, roads, grids, and weighbridges.
