# The Lookout

Protect and monitor your property with confidence.

Starlink or 4G connectivity

Protect what matters most with Farmbot Security.

The Lookout gives you visibility across your assets around the clock. With 2 or 4 smart motion detection cameras giving you 180° or 360° coverage, it monitors your key areas day and night, from sheds, fuel bowsers, loading ramps, yards, silos, and intersections.

# The Lookout

## Multi-camera surveillance system designed to monitor critical areas with precision.

Using 2 or 4 advanced cameras The Lookout provides continuous wide-angle coverage and smart motion detection that filters out false alerts from animals and environmental movement. Access live streaming and recorded footage anytime, and stay connected with real-time alerts from people or vehicle activity. Fully off-grid and built for tough Australian conditions, The Lookout is built for reliable, long-term security.

### Connection types

Starlink: Perfect for properties with no cell coverage.

4G: Ideal for areas with mobile coverage, optional antenna upgrade for low reception areas.

### Key Features
