Entry Guard Range

Protect and monitor your property with confidence.

Starlink or 4G connectivity

Protect what matters most with Farmbot Security.

Entry Guard, Entry Guard Pro, Entry Guard Thermal

The Entry Guard range gives you visibility over who enters your property and when. With multiple camera options, including dual-camera motion and heat detection, plus enhanced number plate recognition, it's built for accuracy across gates, roads, grids, and weighbridges.

Entry Guard Range

Built to monitor your boundaries day and night, while acting as a visible deterrent to unwanted activity.

The Entry Guard Range includes three solutions designed for various operational needs, featuring capabilities such as number plate recognition and thermal detection. The Entry Guard Pro can provide a monthly vehicle report, giving you visibility over traffic entering and exiting your property with smart analytics designed to reduce false alarms. Speak with the Farmbot team to identify the ideal solution for your property.

- Connection types**
- Starlink: Perfect for properties with no cell coverage.
 - 4G: Ideal for areas with mobile coverage, optional antenna upgrade for low reception areas.
