The Lookout

Protect and monitor your property with confidence.

Starlink or 4G connectivity

Protect what matters most with Farmbot Security.

The Lookout gives you visibility across your assets around the clock. With 2 or 4 smart motion detection cameras giving you 180° or 360° coverage, it monitors your key areas day and night, from sheds, fuel bowzers, loading ramps, yards, silos, and intersections.

The Lookout

Multi-camera surveillance system designed to monitor critical areas with precision.

The Lookout provides continuous wide-angle coverage using 2 or 4 advanced cameras, and smart motion detection that sends alerts people and vehicles. Access live streaming and recorded footage anytime, and stay connected with near real-time alerts. The Lookout is fully off-grid and built for tough Australian conditions, for reliable, long-term security.

Connection types
Starlink: Perfect for properties with no cell coverage.
4G: Ideal for areas with mobile coverage, optional antenna upgrade for low reception areas.
